Model# PF HT 754CR REMANUFACTURED TRANSMISSION

Allison Transmission (NYSE: ALSN) is the world's largest manufacturer of fully automatic transmissions for medium- and heavy-duty commercial vehicles and is a leader in hybrid-propulsion systems for city buses.

Allison Transmission Home

Unfortunately, whilst Allison may support all these older trannys, they don't have much info on their website unless you want to buy books from them. So making a decision on whether to install a 740 or a 750 can be difficult if all the specs are not available. I have found a couple of websites that carry things like gear ratios, torque ratings ...

BNO BBS - BNO's Bulletin Board System: Allison HT 740-750

The HT740 was designed for engines up to 425 hp and 1300 lb/ft of torque, but in transit buses those ratings are reduced to 350 hp and 1100 lb/ft. The HT747, with its special three-gear pump for better coolant flow, is used only in transit buses and is rated for engines producing up to 350 hp and 1100 lb/ft.
