Best magnification for stargazing? - posted in Binoculars: Hi All, I want to buy bigger binocular to see better star clusters or biggest galaxies. I have now 8x42 for handy stargazing, and Nikon 16x56 for airplanes 70% and stars 30%. I like scanning whole sky and I see difference by wider 8x vs 16x. Theoretically higher magnification gives more stars but we can lost context.
