Remodelista.com is the go-to, undisputed authority for home design enthusiasts, remodelers, architects, and designers. Unlike sites that cater to all tastes, Remodelista has a singular and clearly defined aesthetic: classic pieces trump designs that are trendy and transient, and well-edited spaces take precedence over cluttered environments. High and low mix seamlessly here, and getting the look need not be expensive (think Design Within Reach meets Ikea). Remodelista decodes the secrets to achieving this aesthetic, with in-depth tours and lessons from 12 enviable homes; a recipe-like breakdown of the hardest-working kitchens and baths; dozens of do-it-yourself projects; “ The Remodelista 100, ” a guide to the best everyday household objects; and an in-depth look at the ins and outs of the remodeling process. In a world of design confusion, Remodelista takes the guesswork out of the process.

The latest tips and techniques for working with pastels - in full color Pastels offer bright colors, a great level of portability, and no drying time - plus they're relatively inexpensive and can be used to draw and paint on almost any surface. Pastels For Dummies covers the many aspects of this exciting medium, from the fundamentals of choosing the right materials to step-by-step projects, including landscapes, abstracts, and portraits. Inside you'll find hands-on, easy-to-follow exercises and attractive full-color artwork. Presents drawing, painting, and shading techniques and styles in an easy-to-understand format Accessible to artists of all levels Discover your inner artist with Pastels For Dummies and make your artwork come alive!

In this book, the noted intellectual historian Frank Ankersmit provides a systematic account of the problems of reference, truth, and meaning in historical writing. He works from the conviction that the historicist account of historical writing, associated primarily with Leopold von Ranke and Wilhelm von Humboldt, is essentially correct but that its original idealist and romanticist idiom needs to be translated into more modern terms. Rehabilitating historicism for the contemporary philosophy of history, he argues, "reveals the basic truths about the nature of the past itself, how we relate to it, and how we make sense of the past in historical writing." At the heart of Ankersmit's project is a sharp distinction between interpretation and representation. The historical text, he holds, is first and foremost a representation of some part of the past, not an interpretation. The book's central chapters address the concept of historical representation from the perspectives of reference, truth, and meaning. Ankersmit then goes on to discuss the possible role of experience in the history writing, which leads directly to a consideration of subjectivity and ethics in the historian's practice. Ankersmit concludes with a chapter on political history, which he maintains is the "basis and condition of all other variants of historical writing." Ankersmit's rehabilitation of historicism is a powerfully original and provocative contribution to the debate about the nature of historical writing.

Written for the Edexcel Syllabus B and similar schemes offered by the Awarding Bodies, this book incorporates modern approaches to mathematical understanding. It provides worked examples and exercises to support the text.

Research is clear: communication is an essential mathematical process. This book provides all the tools to make communication come alive and to ensure the classroom is a vibrant, collaborative learning environment. Centred around three main sections-Mathematical Discourse, Reading in Mathematics, and Writing in Mathematics-Dr. Cathy Marks Krpan provides practical suggestions on how to create such an environment. Each section includes: What the Research Says Collaborative Skills and Structures Teaching Strategies Assessment Tips Supports for English Language Learners Canadian Student Samples with modelled Teacher Feedback Line Masters and a Companion Website
