Guide The WHO Child Growth Standard is recommended for use internationally with children aged 0 to 5 years. These growth standards are also recommended for use in the UK with children 4 years and under. The WHO Child Growth Standard is based on an international sample from Brazil, Ghana, India, Norway, Oman and the United States, totalling 26,985 measurements of weight and length for those aged 0 to 24 months, and weight and height for those aged 24 to 71 months.
