STIHL 029, 039 Tightening Torques "DG" screws are used in the polymer and light-alloy components of models 029 and 039. When screwed in for the first time, DG screws form a permanent thread in the parts concerned. They can be released and retightened as often as necessary without affecting the strength of the screwed assembly.

related to chainsaw kickback. STIHL has developed a color code system using green and yellow to help you select a powerhead, bar and chain combination that complies with the kickback requirements of the ANSI Standard. See the sections entitled "Safety Precautions" and "Specifications" of this manual. Do not rely exclusively upon the safety devices built into your saw. As a chainsaw user, you ...
