The Serengeti Rules: The Quest to Discover How Life Works...

"Sean B. Carroll's new book The Serengeti Rules is a passionate telling of the story of the precarious and hard-fought balance that is the very precondition of health—both at the level of individual organisms and at the level of ecosystems. . . . The book is informative, well-written, and persuasive. . . . The Serengeti Rules is an optimistic book."

The Serengeti Rules: The Quest to Discover How Life Works...

In his book, The Serengeti Rules: The Quest to Discover How Life Works and Why It Matters, Carroll argues that the most critical thing we have learned about human life at the molecular level is that everything is regulated. Carroll uses medical analogies, comparing the current blight on nature to a disease that ravages the body.
