At a time when many  
Christians no longer  
practice their faith, there  
has been an increase in  
the attention given to  
the devil and his  
devious ways. Because

Financial spread betting offers a potentially tax-free way of buying and selling (including short-selling) stocks, stock indices, commodities and currencies. It can be more cost-effective than share dealing in a traditional stockbroker account, and it need not be any more dangerous. Most spread bettors lose money, and many of

them give up within six months, but you don't need to be one of them if you practice "Better Spread Betting." And if you can make it work (or not fail too badly) during times of market meltdown, then you should be well placed to reap the rewards when the good times roll. If you think that spread betting is the reckless
