Cross docking is most commonly used as part of a company's warehouse and distribution efforts. Many companies have products

Bookmark File PDF Warehouse

brought into a warehouse where they are sorted, consolidated, and then put onto another truck or transport vehicle to go out to a retail outlet. These locations serve as warehouses or distribution centers.

~~Cross-Docking~~
~~(Understanding~~

What it is: A broad definition of crossdocking is the transfer of goods and materials from an inbound carrier to an

Bookmark File PDF Warehouse

outbound carrier, without goods or products actually entering the warehouse or being put away into storage. Thus, the products "cross the docks" from the receiving dock area to the shipping dock area.

~~Emergence~~

Cross docking plays on the principle of having your inventory spend the least amount of time possible in a warehouse. In some cases, no time is spent in the warehouse. What

Bookmark File PDF Warehouse

happens in cross
docking is that
products are shipped
to the warehouse and
offloaded to one side
of the dock.
